

5 Work plan

For each subproject of the flagship please fill in a work plan.

Additionally submit an overall time plan (e.g. Gantt chart).

Based on this time plan and taking into account that certain relevant milestones of the flagship should be reached by the midterm review (See “Guide for applicants” chapter 9.1), which month after the begin of the flagship do you think would be most suited for a midterm review (there is no guarantee, that Innosuisse will choose this month):
